MBA ACADEMIC RESOURCES

The core curriculum of MBA focuses on developing fundamental skills and knowledge in the areas of Economics and Environment, Organization and Behaviour, Finance and Accounting, Marketing, Operation Management, Human Resource Management, Information Systems and Quantitative Methods. After successfully completing the first year requirements, the students undertake summer training of upto twelve weeks at the managerial level. Students analyze and support specific managerial problems under the guidance of a faculty member as well as a manager in the host company.

Second year students structure their studies to suit their aptitude and interest. They usually develop one or two major areas of expertise by selecting courses from the 60 to 70 electives that the Institute typically offers.

The method of instruction varies. Case studies, lectures, role plays, group and individual exercises, projects, student presentations, simulation games etc., are used according to course requirement. Many courses bring in industry experts to integrate classroom learning with industry practice.

TSM MBA Programme

TSM MBA programme is a general management programme, with opportunities for functional specialisation. TSM has set a quality policy that emphasizes on developing young management graduates who, besides meeting the immediate needs and expectations of the Industry, would also evolve into empowered individuals with an urge for constant and continuous learning and bias for action. The scheduling of various courses through the 3 trimesters is done balancing academic logic and the learning difficulties from the student perspective.

At the end of the first year, students are required to undergo internship of 6-8 weeks duration in an organization working on a project relating to any functional area. The objective is to help students gain insights into the actual working of an organization, its structure, systems and processes and apply some of the tools and techniques learned in solving real world problems in an organizational setting.

MBA Programme: II Year

TSM endeavors to offer a bouquet of electives currently permitting specialization in the areas of Finance, Marketing, Operations, Analytics and Human Resources Management.
